APPENDIX 2

Rules for counting votes

Single transferable vote system

1. The First Stage

1. The voting papers shall be sorted into parcels according to first preferences, any invalid papers being set aside.
2. The numbers of first preference votes for each candidate and the total number of valid votes shall be determined.
3. The quota for election shall be determined by dividing the total number of valid votes by one more than the number of places to be filled, the result being rounded up if not exact to the next whole number above.
4. Any candidate who is credited with a number of votes equal to or exceeding the quota shall be deemed to be elected, provided that the number of candidates deemed elected does not exceed the number of places to be filled.
5. This completes the first stage of the count.

2. Subsequent Stages

1. If one or more candidates have surpluses above the quota, and the total values of such surpluses, together with any votes in suspense, does not exceed the difference between:-
 - a. the number of votes credited to the candidate with the smallest number of votes and the number of votes credited to the candidate with the next smallest number of votes; or
 - b. the total number of votes credited to the two or more candidates with the smallest numbers of votes and the number of votes credited to the candidate with the next smallest number of votes, the transfer of such surpluses shall be deferred.
2. Otherwise, if one or more candidates have surpluses, the largest surplus shall be transferred.

3. If the two or more candidates with the largest surpluses have equal surpluses, the surplus of the candidate who was credited with the largest number of votes at the earliest stage at which they had an unequal number of votes shall be transferred. If such two or more candidates have been credited with the same number of votes at all stages of the count it shall be determined by lot which surplus to transfer.
4. If, after all surpluses have been transferred or deferred, one or more places remain to be filled, the candidate or candidates credited with the smallest number or numbers of votes shall be excluded.
5. The two or more candidates credited with the smallest numbers of votes shall be excluded together if the total number of votes of such two or more candidates together with the total of any deferred surpluses and any votes in suspense does not exceed the number of votes credited to the candidate with the smallest number of votes.
6. Otherwise, the candidate credited with the smallest number of votes shall be excluded if the number of votes of such candidate together with the total of any deferred surpluses and any votes in suspense does not exceed the total number of votes credited to the candidate with the next smallest number of votes.
7. If the two or more candidates credited with the smallest numbers of votes are each credited with the same number of votes, then the candidate who had the smallest number of votes at the earliest stage at which they had an unequal number of votes shall be excluded. If such two or more candidates have been credited with the same number of votes at all stages of the count, then it shall be determined by lot which candidate to exclude.

3. Transfer of a Surplus

1. In the case of a surplus arising at the first stage, all the voting papers received by a candidate shall be examined.
2. In the case of a surplus arising at a later stage consequential on the transfer of another surplus or from the exclusion of a candidate or candidates, only the last parcel of voting papers, all of one value, which gave rise to the surplus, shall be examined.

3. The voting papers to be examined shall be sorted into sub-parcels according to the next available preferences for continuing candidates, any papers on which no next available preference is expressed being set aside.
4. The number of papers in each sub-parcel, the total number of transferable papers, and the number of non-transferable papers shall be determined.
5. If the present total value of the transferable papers exceeds the surplus, the transfer value of each paper shall be determined by dividing the surplus by the number of transferable papers to two decimal places, ignoring any remainder and the papers shall be marked with the new transfer value. Otherwise the transfer value of each paper is its present value.
6. Each continuing candidate shall be credited with the value of any papers received, and any non-transferable difference between the total value of such papers and the surplus shall be added to the previous non-transferable total.
7. Any candidate who is now credited with a number of votes equal to or exceeding:-
 - a. the quota; or
 - b. the sum divided by one more than the number of places remaining to be filled, of the votes credited to continuing candidates, any votes in suspense, and any untransferred surpluses, shall be deemed to be elected, provided that the number of candidates deemed elected does not exceed the number of places to be filled.
8. The transfer of a surplus constitutes a further stage in the count.

4. Exclusion of a Candidate or Candidates

1. The voting papers of the excluded candidate or candidates, together with any papers held in suspense shall be arranged in parcels, in descending order of transfer value.
2. The parcels of papers of highest transfer value shall be sorted into sub-parcels according to next available preferences for continuing candidates, any papers on which no next available preference is expressed being set aside.

3. The number and value of papers in each sub-parcel, and the number and value of non-transferable papers shall be determined.
4. Each continuing candidate shall be credited with the value of any papers received, and the value of any non-transferable papers shall be added to the previous non-transferable total.
5. Any candidate who is now credited with a number of votes equal to or exceeding:-
 - a. the quota; or
 - b. the sum divided by one more than the number of places remaining to be filled, of the votes credited to continuing candidates the value of any parcels of papers not yet transferred, and any untransferred surpluses shall be deemed to be elected, provided that the number of candidates deemed elected does not exceed the number of places to be filled.
6. Any remaining parcels of papers shall be sorted and transferred in turn in descending order of transfer value in the same way, and candidates deemed elected where appropriate.
7. After the transfer of a parcel of papers of any one value, if the total value of the remaining papers of lower value does not exceed the difference between:-
 - a. the number of votes credited to the candidate with the smallest number of votes and the number of votes credited to the candidate with the next smallest number of votes; or
 - b. the total number of votes credited to the two or more candidates with the smallest number of votes and the number of votes credited to the candidate with the next smallest number of votes, the transfer of the remaining parcels of papers may be deferred and their value held in suspense.
8. The exclusion of a candidate or candidates constitutes a further stage in the count.

5. Filling the Last Vacancies

1. If at any stage as the result of the proposed exclusion of one or more candidates the number of continuing candidates would be equal to the number of places remaining to be filled, such continuing candidates shall be deemed to be elected.
2. If at any stage the number of candidates deemed to be elected is equal to the number of places to be filled, no further transfers of papers shall be made, and the remaining continuing candidate(s) shall be formally excluded.
3. The count is now complete.
